

## CIS120      Web Page

Construct a web page

Make sure **your name** is on the web page (**hint:** use the h1 tags).  
Make it the first thing at the top of the web page.

Choose at least **one** story and at least **one** images (pictures) from the web site.

You are **restricted** to the stories and graphics found on the web site.

Create a folder on the c: drive called temp, then in the temp folder, (**c:/temp**).

Select the graphics for your web page and save them (download) to **c:/temp** folder.

You will refer to images by **img src = "name.jpg"**

Using Notepad and a browser, construct your web page using the stories and graphic found at the web site. Be sure to test your web page.

Be sure to save (**c:/temp**) the web page as your first name last name with the extender of **htm**. No space between first and last name.

From Notepad, use type of 'All files' and add ".htm" to the file name.

Example: my web page would be: **johnsmith.htm**

Save your web page and pictures used to your onedrive or gdrive

Take picture of your web page (print screen key, then paint then save picture to c:/temp).

E-mail picture of web page to your regular instructor  
Subject of email: web page
